

"Hey mom! I got an important e-mail from school."

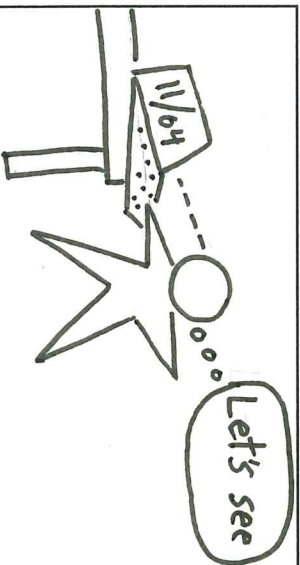

Mom would like to gather more details.

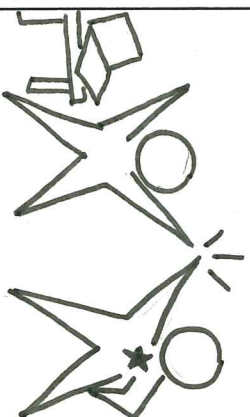

Congratulations! Kelly, you are invited to showcase your art portfolio...

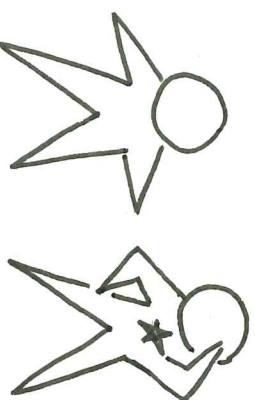

Kelly is interested in enrolling into the high school's visual arts academy.

"Mom, the showcase is on November 4th."

"I'm so proud of you Kelly!"

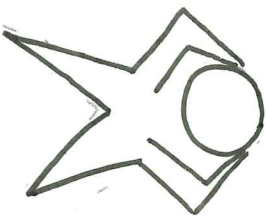

"Okay, we have some time to prepare. How many artworks do you need for the showcase?"

Please, be prepared to submit twelve original artworks.

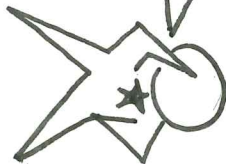

"Oh no, I don't think I have twelve original artworks!"

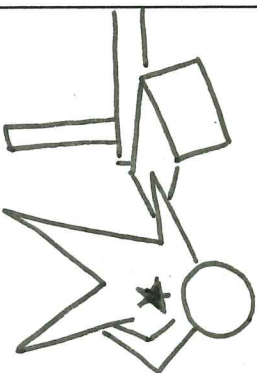

"What am I going to do mom?"

How many do you have?

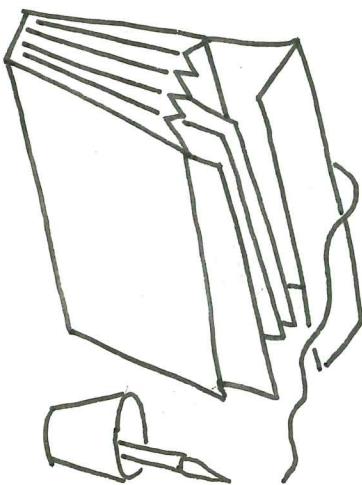

"Let me check..."

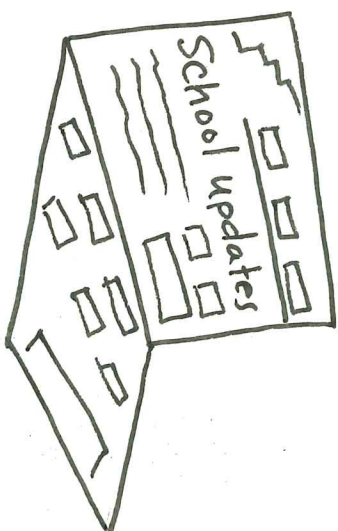

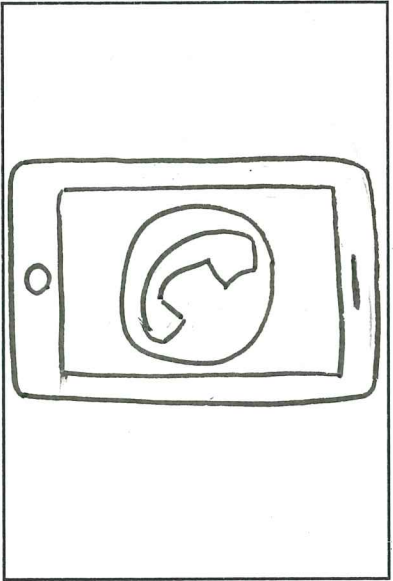

"Let's check the school's website. Maybe they offer some after-school programs for art."

"Mom, I only have five original artworks."

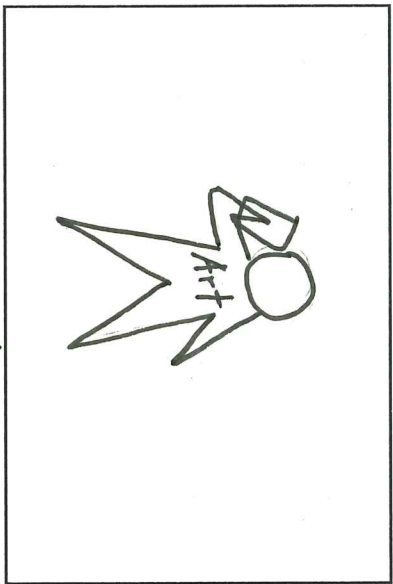

"I'm not finding any information. Maybe I'll call Mr. Chau, the visual arts teacher."

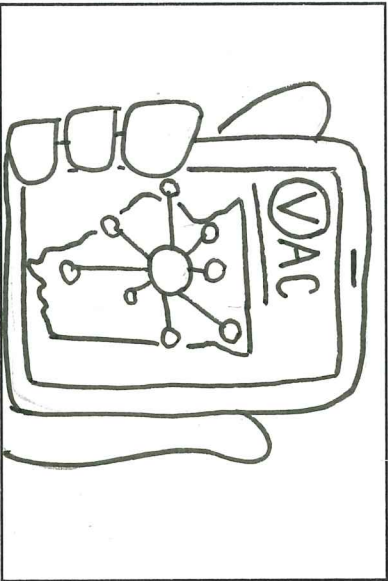

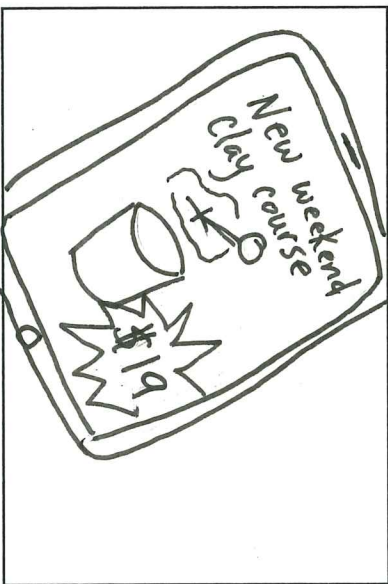

"Mr. Chau, I need your help to find art programs for Kelly."

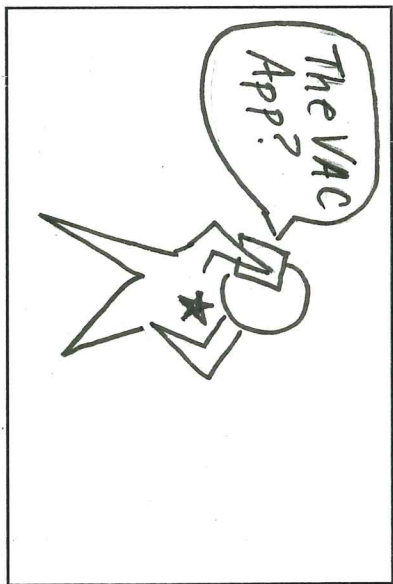

"I understand. I have the perfect solution for you. The VAC app."

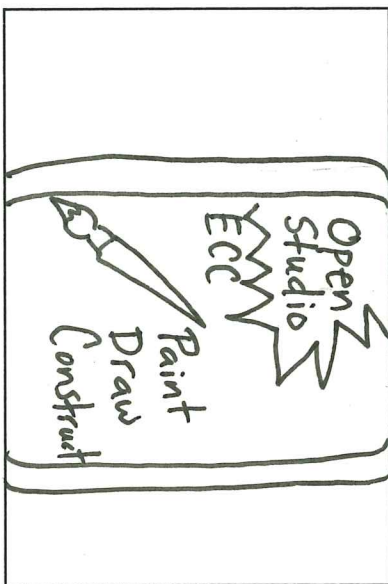

"The VAC app connects you with art programs in your community."

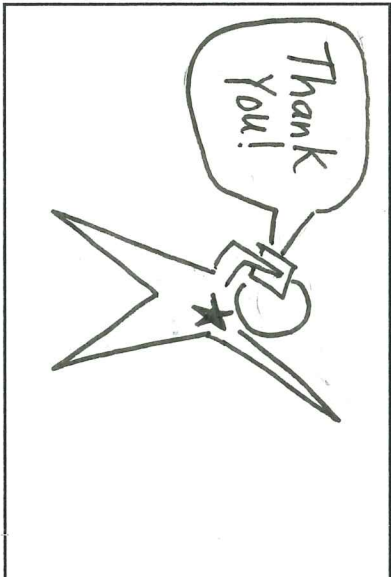

"I'm looking at the app now and they just shared a new weekend clay course that would be perfect for Kelly's portfolio."

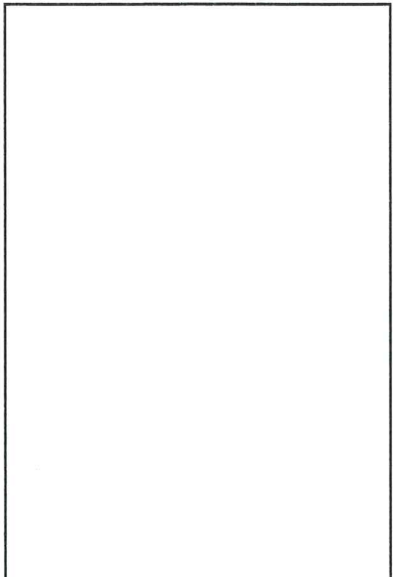

"I've never heard of this app... how can it help me?"

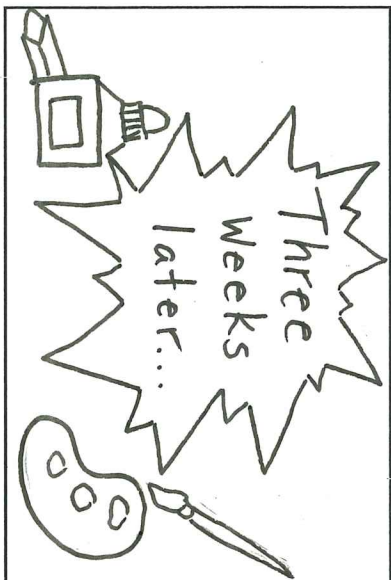

"There's also an open studio located near the school. This will help Kelly to complete her twelve original artworks."

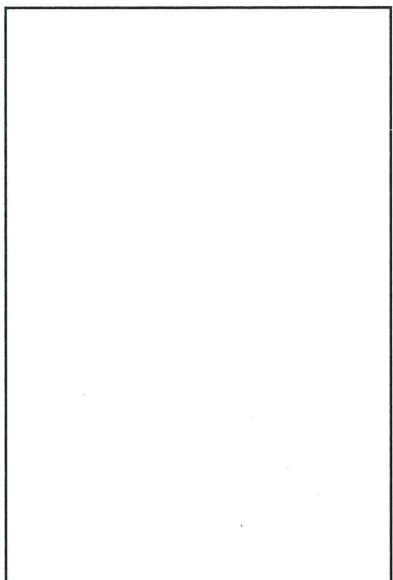

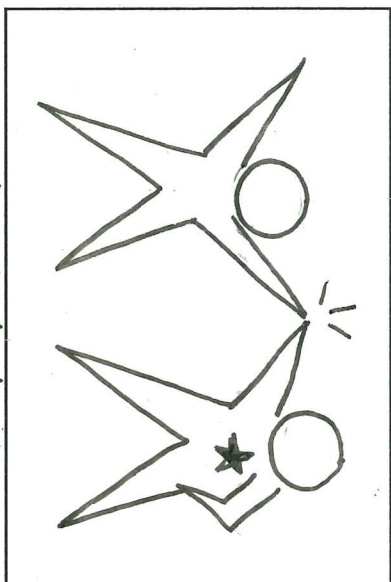

"Thank you, Mr. Chau. I will download the VAC App now."

Kelly has been busy creating artworks after school and on weekends.

"Mom! I did it. I got into the high school Visual Arts Academy. "I love the VAC App."
